

about 180

180 magazine is an internet publication with no budget and no plans at the moment for either print publication or advertising. It is a reflection of the combined vision of the contributors and editors.

The magazine is optimized for a screen size of 1024 x 768 and a maximized browser.

submissions

While 180 magazine usually presents the work of invited photographers in each issue, we are happy to look at the work of new photographers who have a distinctive vision, and established photographers who have intensely personal work that they would like to share.

audience

180 magazine received an average of over 500 visitors per day for the first six months of 2008. USA 82%, Canada 8%, China 5% and the rest mostly from Europe.

sample issues

The magazine is online and the current full issue can be found at <http://180mag.ca/>

Back issues and a list of our contributors can be found at <http://180mag.ca/180archive.html>
